

NOVEL PIPERIDINE DERIVATIVES, PROCESS FOR OBTAINING
THEM AND PHARMACEUTICAL COMPOSITIONS CONTAINING THEM

SANOFI-SYNTHELABO

Abstract

The invention relates to the compounds of
formula:

as well as to the salts thereof with inorganic or organic
acids, to solvates thereof and/or to hydrates thereof,
which have strong affinity and high selectivity for the
human NK₁ receptors of substance P.

The invention also relates to the process for
preparing them, to the intermediate compounds of formula
(VII) which are useful for the preparation, to
pharmaceutical compositions containing them and to their
use for the manufacture of medicinal products intended
for treating any pathology in which substance P and the
human NK₁ receptors are involved.
